Part –III: BID OPENING AND EVALUATION CRITERIA

The objective of evolving this evaluation methodology is to facilitate the selection of the most quality-sum-cost effective solution that appropriately meets the requirements of the Bank as identified in this RFP.

There would be Three (3) stages for evaluation process. The Stages are:

- I) Eligibility Criteria Evaluation
- II) Technical Evaluation
- III) Commercial Evaluation

The Bank will open the technical bids, in presence of bidders' representative(s) who choose to attend, at the time and date mentioned in Bid document on the date and venue mentioned in control sheet. The bidder's representatives who will be present shall sign the register evidencing their presence / attendance.

1. Eligibility Evaluation:

The Eligibility would be evaluated first for the participating bidders. The bidders, who would qualify all Eligibility Criteria as mentioned in **Part-1, Clause 3**, will be shortlisted for the Technical bid evaluation. A detailed techno-commercial evaluation would be undertaken for eligible bidders.

2. Technical Evaluation:

- 2.1 The proposals will be evaluated in two stages. In the first stage, i.e. technical as mentioned in **ANNEXURE – P**, the bidders will be shortlisted, based on bidder's responses. In the second stage, the commercial bids would be evaluated.
- 2.2 The Bank will evaluate the technical response to the RFP of bidder who are found eligible as per the eligibility criteria mentioned in the RFP.
- 2.3 A detailed technical evaluation would be undertaken for eligible bidders and only the technically qualified bidders would be shortlisted for commercial opening. During the period of evaluation, bidders may be asked to provide more details and explanations about information provided in the proposals. Bidders should respond to such requests within the time frame indicated in the letter / fax / e-mail seeking clarification / explanation.
- 2.4 Bank may not evaluate the offer/bid in case of non-adherence to the format or partial submission of technical details as per the format given in the RFP. Any decision of Bank in this regard shall be final, conclusive and binding on the bidder/tenderer.
- 2.5 Bidder has to provide link feasibility report for each & every branches as mentioned in **Annexure – V** for MPLS link wire or wireless media and MPLS link on 3G/4G media separately.

2.6 The Technical evaluation will be done on

- The basis of comply chart provided by bidder as per Scope of work in Part IV and Technical requirements as per **Annexure – M, N**.

The Bidder should comply with all points in scope of work in Part IV and all technical requirements in Annexure – N. Bidders have to provide feasibility of the MPLS link in the branches/offices as per the list mentioned in Annexure – N, O & P.

Non-compliance of any above mentioned points will lead to rejection from the bidding process. After technical evaluation, commercial bids of only technically qualified bidders will be opened.

3. Commercial Evaluation

To assist in the scrutiny, evaluation and comparison of offers / bids, Bank may, at its sole discretion, ask some or all bidders for clarification of their offer / bid. The request for such clarifications and the response will necessarily be in writing and no change in the price or substance of the bid shall be sought, offered or permitted. Any decision of Bank in this regard shall be final, conclusive and binding on the bidder.

The envelope containing the Commercial offers of only those Bidders, who are short-listed after technical evaluation, would be opened. The format for quoting commercial bid set out in **Annexure – Q**. The commercial offer should consist of comprehensive Cost for required solution. Bidder must provide detailed cost breakdown, for each and every category mentioned in the commercial bid.

Commercial Bids of bidders, who qualified in the technical evaluation stage, will be considered for participation in commercial Bidding. After opening Commercial Offers of the short-listed Bidders, if any discrepancy is noticed between words and figures, the amount indicated in words shall prevail. Detailed Criteria for evaluation of Commercial Bid is furnished in **Annexure “Q”**.

The Commercial Bids of only technically qualified bidders will be opened and evaluated by the Bank and the evaluation will take into account the following factors:

- The commercial bids for categories A, B & C will be evaluated separately and selected L1 & L2 bidders for each category.
- In the event the bidder is not feasible for category A or Category B links for all branches, for evaluation purposes the highest cost of link for that category of link as well as for that area category, if any, in the submitted bids would be used to calculate the TCO. For the purposes of payment and finalization of the contract, the value of the lowest bid would be used.
- In case there is a variation in value between numbers and words; the value mentioned in words would be considered.

The Bidder needs to provide unit costs for link and services; unit rates with applicable taxes including GST would be considered for the TCO calculation purposes.

Bank will finalize the L-1 bidder based on the TCO of each category of link quoted by the bidder in **Annexure "Q"**, having the following terms and conditions:

- a. Bidders to strictly quote in the format and for periods as mentioned above.
- b. L1 bidder would be determined based on the total cost of ownership of that category.
- c. No counter condition/assumption in response to commercial bid will be accepted. Bank reserves the right to reject such bid.
- d. The requirements of secondary link at branches are indicative for the TCO calculation. However it may vary depending upon the Bank's requirement.
- e. The Bank reserves the right to decrease or increase the no. of branches as specified in this RFP. Bank also reserves the right to place an order for additional of **up to 25% (Twenty Five percent) as per the CVC guidelines** of the projected no. of branches with the bidder/s at the agreed price, terms and conditions during the contract period. Any decision of Bank in this regard shall be final, conclusive and binding on the bidder.

PART –IV

BROAD SCOPE OF THE WORK

The scope of services for the Supply, Commissioning, and Maintenance & Management of category A, B & C type of link at branches is as follows:

For all categories of links

- 4.1 Bidder should provide MPLS link feasibility report last mile on Wire/RF and 3G&4G separately for branches as per list mentioned in **Annexure – V**. The links will be used either primary or back up of existing MPLS links from BSNL/MTNL or VSAT links with Auto-failover option.
- 4.2 Bidder should provide connectivity through wireline or stable wireless media meeting the bandwidth, latency, uptime, etc. and other requirement mentioned in this RFP. Bank will give the first preference for wired link (Copper/Fiber) and second preference to wireless media (RF). If branches are not feasible on MPLS on Wired/RF, third preference would be given to 3G&4G as last mile. If both MPLS on wired / RF and 3G/4G are not feasible then the last preference will be VSAT.
- 4.3 The prospective service provider/s shall establish the MPLS-VPN Network and should be capable of maintaining it for a **period of 3 years** based upon performance to be reviewed annually. Bank may extend the contract for further **period of 2 years** on same terms and conditions on mutually agreed prices.
- 4.4 Branches connected through selected bidder MPLS should communicate each other directly without coming to Data Centre i.e. any to any communication.
- 4.5 Selected bidder should provide connectivity with minimum number of “hop” for all links.
- 4.6 All the POPs from where the MPLS bandwidth is provided to Bank should have redundancy of equipments, links, power, backhaul connectivity etc. Selected bidder needs to confirm it in writing.
- 4.7 If the last mile is on wireless, bidder has to ensure that no other Radio equipment causes interference and should not be able to trap the wireless signals used for Bank’s network.
- 4.8 Bidders shall have to submit MPLS link feasibility report for category A & category B link for all branches separately.
- 4.9 Any deviation with respect to feasibility report submitted such as wired to wireless, increase in pole height, declared as non-feasible, etc., during

implementation of the project will not be accepted. The selected bidder shall be penalized for the deviation.

- 4.10 The MPLS network of bidder should not be linked with any type of network from BSNL/MTNL at core / distribution / access / last mile level at any location.
- 4.11 The backhaul link to be terminated at Bank's data centre at Bangalore & Disaster Recovery Center at Kolkata should be of Optical Fibre media only with self-healing ring based architecture. The last mile should be coming via two different physical paths. **A diagram showing path redundancy at our data centre should be submitted with technical bid.** Any cross-connect charges, if required to terminate the link at our Bangalore Data center, will be borne by Bank.

- 4.13 In case of Category A & Category C links selected bidder shall provide committed bandwidth at each location and make it available continuously. Bidder should ensure that committed bandwidth subscribed by Bank is always available for use. Bank may test the load on the links on time to time. In case of bandwidth subscribed by the branch is not available at any time, the duration of non-availability of committed bandwidth will be treated as downtime of the link. Penalty on downtime will be enforced accordingly.
- 4.14 A separate VPN is to be created only for Bank network and in no way the VPN should be shared with other customers sharing the MPLS backbone. Bank MPLS Network must be accessible to Bank nodes only. Bank has implemented IPSEC VPN in its existing network. Bank will also run IPSEC VPN on this MPLS link and there should not be any dependency from bidder/ service provider on this implementation while integrating their MPLS network. Further, there should not be any dependency on the service provider if Bank decides to implement other VPN variants like GETVPN, DMVPN or any other such technology.
- 4.15 The initial bandwidth of each category link at branch end should be according to the bandwidth mentioned in **Annexure – V**. The bandwidth must be capable of upgrading at a later stage as and when required by the Bank.
- 4.16 The bandwidth of backhaul link is factored as 100 Mbps and bidder to quote the cost of the same in commercial bid. However order for backhaul links will be placed based on 50% bandwidth of total bandwidth of MPLS links provided by selected bidder.

- 4.17 The Category A, B, C link of bidder should be fully isolated from Internet traffic even if running on the same core/backbone. It is desired that same PE Router does not run both customer MPLS VPN traffic and Internet traffic. The MPLS-VPN network offered to the Bank should not carry any internet routes. The bidder has to provide network topology showing how internet traffic is segregated from proposed MPLS cloud.
- 4.18 Bidder needs to have a co-ordination with Bank's existing network system integrator i.e. M/s WIPRO for integrating proposed secondary link with present infrastructure in order to run the branches/offices smoothly.
- 4.19 Bank desires to subscribe network connectivity for the branches / offices across the country; hence the selected bidder should work seamlessly throughout the country.
- 4.20 The bidders are expected to do a site survey for feasibility and for installation of the required equipments. They should clearly mention the required equipment/s that will be deployed during commissioning. The charges towards cabling & other activities should be included in the cost of link.
- 4.21 Any extra material required for the project execution not mentioned in the commercial bid, shall be supplied and deployed by the bidder at no extra cost to Bank.
- 4.22 Bidder must ensure that it will use products that are intrinsically safe and are approved for use in these locations. It must adhere to Government of India safety regulation and should use earthing for all its masts.
- 4.23 Bidder will monitor the links and Bidder must have their own Network Operation Centre for monitoring of the Network. Bank will provide the SNMP access (read only) of the router for monitoring of the link. All the locations are to be monitored on 24x7x365. Bidder should provide site-wise network link usage and uptime.
- 4.24 Besides monitoring from NOC, bidder should provide Manpower for monitoring links on daily basis during Monday to Saturdays 10 A.M to 7 P.M at Bank NOC Centre as per following criteria.

Technical Requirements

SL. No.	Technical requirement	Compliance (Yes/No)
1	Bidder should provide MPLS link feasibility report last mile on Wire/RF and 3G&4G separately for branches as per list mentioned in Annexure – W . The links will be used either primary or back up of existing MPLS links from BSNL/MTNL or VSAT links with auto-failover option.	
2	Bidder should provide connectivity through wireline or stable wireless media meeting the bandwidth, latency, uptime, etc. and other requirement mentioned in this RFP. Bank will give the first preference for wired link (Copper/Fiber) and second preference to wireless media (RF). If branches are not feasible on MPLS on Wired/RF, third preference would be given to 3G&4G as last mile. If both MPLS on wired / RF and 3G/4G are not feasible then the last preference will be VSAT.	
3	The prospective service provider/s shall establish the MPLS-VPN Network and should be capable of maintaining it for a period of 3 years based upon performance to be reviewed annually. Bank may extend the contract for further period of 2 years on same terms and conditions on mutually agreed prices.	
4	Branches connected through selected bidder MPLS should communicate each other directly without coming to Data Centre i.e. any to any communication.	
5	Selected bidder should provide connectivity with minimum number of "hop" for all links.	
6	All the POPs from where the MPLS bandwidth is provided to Bank should have redundancy of equipments, links, power, backhaul connectivity etc. Selected bidder needs to confirm it in writing.	
7	If the last mile is on wireless, bidder has to ensure that no other Radio equipment causes interference and should not be able to trap the wireless signals used for Bank's network.	
8	In the case of wireless link (RF) or VSAT link the responsibility of obtaining the roof top permissions/base area for erection of Pole/Mast etc., lies with the selected bidder.	
9	Bidders shall have to submit MPLS link feasibility report for category A & category B link for all branches separately.	
10	Any deviation with respect to feasibility report submitted such as wired to wireless, increase in pole height, declared as non-feasible, etc., during implementation of the project will not be accepted. The selected bidder shall be penalized for the deviation.	
11	The MPLS network of bidder should not be linked with any type of network from BSNL/MTNL at core / distribution / access level at any location.	
12	The backhaul link to be terminated at Bank's data centre at Bangalore & Disaster Recovery Center at Kolkata should be of Optical Fibre media only with self-healing ring based architecture. The last mile should be coming via two different physical paths. A diagram showing path redundancy at our data centre should be submitted with technical bid. Any cross-connect charges, if required to terminate the link at our Bangalore Data center, will be borne by Bank.	
13	The connectivity provided by the bidder has to be Layer 3 MPLS solution on dedicated ports with 1:1 full duplex committed information rate with end point as Ethernet. The circuit should be available in full duplex mode with sending and receiving available on the same circuit. (For eg. - On a 128 Kbps circuit, 128 Kbps sending and 128 Kbps receiving should be possible simultaneously).	
14	In case of Category A & Category C links selected bidder shall provide committed bandwidth at each location and make it available continuously. Bidder should	

	ensure that committed bandwidth subscribed by Bank is always available for use. Bank may test the load on the links on time to time. In case of bandwidth subscribed by the branch is not available at any time, the duration of non-availability of committed bandwidth will be treated as downtime of the link. Penalty on downtime will be enforced accordingly.	
15	A separate VPN is to be created only for Bank network and in no way the VPN should be shared with other customers sharing the MPLS backbone. Bank MPLS Network must be accessible to Bank nodes only. Bank has implemented IPSEC VPN in its existing network. Bank will also run IPSEC VPN on this MPLS link and there should not be any dependency from bidder/ service provider on this implementation while integrating their MPLS network. Further, there should not be any dependency on the service provider if Bank decides to implement other VPN variants like GETVPN, DMVPN or any other such technology.	
16	The initial bandwidth of each category link at branch end should be according to the bandwidth mentioned in Annexure – W . The bandwidth must be capable of upgrading at a later stage as and when required by the Bank.	
17	The bandwidth of backhaul link is factored as 100 Mbps and bidder to quote the cost of the same in commercial bid. However order for backhaul links will be placed based on 50% bandwidth of total bandwidth of MPLS links provided by selected bidder.	
18	The Category A, B, C link of bidder should be fully isolated from Internet traffic even if running on the same core/backbone. It is desired that same PE Router does not run both customer MPLS VPN traffic and Internet traffic. The MPLS-VPN network offered to the Bank should not carry any internet routes. The bidder has to provide network topology showing how internet traffic is segregated from proposed MPLS cloud.	
19	Bidder needs to have a co-ordination with Bank's existing network system integrator i.e. M/s WIPRO for integrating proposed secondary link with present infrastructure in order to run the branches/offices smoothly.	
20	Bank desires to subscribe network connectivity for the branches / offices across the country; hence the selected bidder should work seamlessly throughout the country.	
21	The bidders are expected to do a site survey for feasibility and for installation of the required equipments. They should clearly mention the required equipment/s that will be deployed during commissioning. The charges towards cabling & other activities should be included in the cost of link.	
22	Any extra material required for the project execution not mentioned in the commercial bid, shall be supplied and deployed by the bidder at no extra cost to Bank.
