- e.** The bidder will be solely responsible for complying with any applicable Export / Import Regulations. The Bank will no way be responsible for any deemed Export benefit that may be available to the bidder.
- f.** In case there is a variation between numbers and words; the value mentioned in words would be considered.
- g.** In the event the vendor has not quoted or mentioned the component or services required, for evaluation purposes the highest value of the submitted bids for that component or service would be used to calculate the TCO. For the purposes of payment and finalization of the contract, the value of the lowest bid would be used.

- h. In the event the bidder is not feasible for Category A or B links for all branches, for evaluation purposes the highest cost of link for that category of link, if any, in the submitted bids would be used to calculate the TCO. For the purposes of payment and finalization of the contract, the value of the lowest bid would be used.

Example:

Total no. of sites – 100

Bidder A Quote:

Feasible – 30@ Rs. 100 per site

Non feasible – 70

Bidder B Quote:

Feasible – 50@ Rs. 110 per site

Non feasible – 50

Bidder C Quote:

Feasible – 25@ Rs. 90 per site

Non feasible – 75

Bidder D Quote:

Feasible – 70@ Rs. 90 per site

Non feasible – 30

From Above, Highest quotation for a link – Rs. 110, therefore, TCO will be arrived as follows:

	Bidder A		Bidder B		Bidder C		Bidder D	
	Feasible	Non Feasible						
<b>No. of Sites</b>	30	70	50	50	25	75	70	30
<b>Price per link for feasible location</b>	100		110		90		90	
<b>Total Cost for feasible links (A)</b>	3000		5500		2250		6300	
<b>Price per link for non-feasible location</b>		110		110		110		110
<b>Total Cost for non-feasible links (B)</b>		7700		5500		8250		3300
<b>TCO</b>	10700		11000		10500		9600	

<b>(A + B)</b>				
<b>Evaluation</b>	L3	L4	L2	L1

- i. In case there is a variation in value between numbers and words; the value mentioned in words would be considered.
- j. In case more than one bidder(s) are evaluated with equal TCO, bidder with highest no. of feasible sites will be given precedence over other bidder (for same TCO)

The Bidder needs to provide unit costs for link and services; Only unit rates for total sites would be considered for the TCO calculation purposes. One-time implementation cost of link at Branches (for category – A) should not be more than Rs. 3000/-, further, one-time implementation cost won't be considered while calculating TCO of category – A links, however, OTC will be considered for Category-B links.

**NOTE: Existing service provider for a site should not quote/bid for secondary link for that particular site (Not applicable for SP-1 of annexure-XXI).**

Bank will finalize the L1 bidder based on the TCO of each category of link quoted by the bidder in **Annexure "XIX (A and/or B)"**, having the following terms and conditions:

- I. Bidders to strictly quote in the format and for periods as mentioned above.
- II. L1 bidder would be determined based on the total cost of ownership of that category.
- III. No counter condition/assumption in response to commercial bid will be accepted. Bank reserves the right to reject such bid.
- IV. The requirement of links at branches are indicative for the TCO calculation. However, it may vary depending upon the Bank's requirement.
- V. The Bank reserves the right to decrease or increase the no. of branches up to 25% (Twenty-Five percent) of the projected no. of branches with the bidder/s at the agreed price, terms and conditions during the contract period. Any decision of Bank in this regard shall be final, conclusive and binding on the bidder

#### **4. NORMALIZATION OF BIDS:**

The Bank has discretion to go through a process of Eligibility evaluation followed by the technical evaluation and normalization of the bids to the extent possible to ensure that eligible bidders are more or less on the same technical ground. After the normalization process, if the Bank feels that any of the bids needs to be normalized and that such normalization has a bearing on

the price bids; the Bank may at its discretion ask all the eligible bidders to re-submit the technical and commercial bids once again for scrutiny.

The resubmissions can be requested by the Bank in the following two manners:

- Incremental bid submission in part of the requested clarification by the Bank.
- Revised submissions of the entire bid in the whole.

The Bank can repeat this normalization process at every stage of bid submission or till the Bank is satisfied. The eligible bidder/s have to agree that they have no reservation or objection to the normalization process and all the technically short listed bidders will, by responding to this RFP, agree to participate in the normalization process and extend their co-operation to the Bank during this process. The shortlisted bidder/s, by submitting the response to this RFP, agrees to the process and conditions of the normalization process.

## **5. SHORTLISTING**

The bidder needs to qualify as per eligibility criteria. Only eligible bidders will be qualified for the Technical evaluation process, to be qualified for commercial bid opening. Only those bidders who achieve technical requirements mentioned in scope of work would be short-listed for commercial bid evaluation.

The Commercial Bids of only technically qualified bidders will be opened and evaluated by the Bank and the evaluation will take into account the following factors:

- a)** The TCO identified in the commercial bid would be the basis of the entire outflow of the Bank for undertaking the scope of work. The Bank will consider the TCO over a five year period starting from the date of Purchase order.
- b)** The bidder will be solely responsible for complying with any applicable Export / Import Regulations. The Bank will no way be responsible for any deemed Export benefit that may be available to the bidder.
- c)** In case there is a variation between numbers and words; the value mentioned in words would be considered.
- d)** In the event the vendor has not quoted or mentioned the component or services required, for evaluation purposes the highest value of the submitted bids for that component or service would be used to calculate the TCO. For the purposes of payment and finalization of the contract, the value of the lowest bid would be used.

## PART –IV

- 4.1.3** The bidders are expected to do a site survey for feasibility and for installation of the required equipment. They should clearly mention the required equipment/s that will be deployed during commissioning. The charges towards network equipment, accessories, cabling & other activities should be included in the cost of link.
- 4.1.4** Any deviation with respect to feasibility report submitted such as wired to wireless, increase in pole height, declared as feasible, etc. but later during the implementation of the project found to be non-feasible, will not be accepted. The selected bidder shall be penalized for the deviation.

- 4.1.7** For Category A & B - link provided by bidder should be fully isolated from Internet traffic even if running on the same core/backbone. It is desired that same PE Router does not run both customer VPN traffic and Internet traffic. The VPN network offered to the Bank should not carry any internet routes. The bidder has to provide network topology showing how internet traffic is segregated from proposed MPLS cloud.

- 4.1.8** Branches connected through offered MPLS link should communicate each other directly without coming to Data Centre i.e. any to any communication.
- 4.1.9** Selected bidder should provide connectivity with minimum number of “hop” for all links.
- 4.1.10** Bank expects minimum number of hop count while routing packets through network.

Necessary network devices such as Router/Mux/Rack along with necessary cabling and Battery Backup as per Industry Standard to be provided by Bidder without any additional cost.

Note: The existing empanelled service providers, who participates in this process and have already provided the Backhaul links for the branch connectivity under previous contracts and intended to use the existing backhaul links under this project, can augment the capacity of existing backhaul proportionately with the count of branches/links which are commissioned under this RFP with the prior consent of Bank. Bank can

further investigate such proposals/ solution as per the Information security norms and may take decision accordingly.

However, if additional backhaul bandwidth is required for running the branches under this RFP Bank shall place order with the selected bidder in tranche of 100 Mbps. (For e.g. - On a 2 Mbps circuit, 2 Mbps sending and 2 Mbps receiving should be possible simultaneously).

**4.1.18** The selected bidder shall provide committed bandwidth at each location and make it available continuously. Bidder should ensure that committed bandwidth subscribed by Bank is always available for use. Bank may test the load on the links from time to time. Penalty on downtime will be enforced accordingly.

**4.1.19** The bidder is required to specify if bursting is available as a supported service. If so, bidder may define the process and specify the lead- times for requesting bursts. The bidder may also confirm the flexibility to dynamically allocate bandwidth to the Bank on demand either on a permanent or temporary basis.

Bank may monitor the links by its own tool for uptime along with bidder. In case of difference in uptime, Bank may consider the payment based on report generated by Bank's tool, if bidder is unable to justify the difference. Penalty for downtime, if any, will be calculated on monthly basis and will be deducted in the quarterly payment.

Following will be excluded while calculating the down time:

It is desired that same PE Router does not run both customer VPN traffic and Internet traffic. The VPN network offered to the Bank should not carry any internet routes. The bidder has to provide network topology showing how internet traffic is segregated from proposed MPLS cloud	
8.	Branches connected through offered MPLS link should communicate each other directly without coming to Data Centre i.e. any to any communication
