**Major Highlights** **Business Performance** **Financials** **Asset Quality** **Capital & Shareholding** **Business Network** **Digital Journey** **ESG Initiatives** **Products & Services**

- The Monetary Policy Committee (MPC) of the Reserve Bank of India (RBI) has induced a rate cut of 25 bps to 6.0 percent and change of policy stance from 'neutral' to 'accommodative' in its first MPC meeting for the FY2025-26 held in Apr-2025.
- Earlier, the RBI had reduced the repo rate by 25 basis points to 6.25 percent in Feb-2025 in the wake of positive outlook on inflation and to boost growth. It had also announced a reduction in the Cash Reserve Ratio (CRR) to 4.0 percent from 4.5 percent in its Dec-2024 MPC meeting.
- On the back of good growth vis-à-vis global slowdown, India is in position to surpass the landmark of \$4 trillion economy in FY 2025-26, surpassing Japan, and positioning itself as the fourth largest economy in the world after USA, China and Germany.
- Slowing down of Industrial Production and sluggish merchandise exports remain major concerns. The IIP growth rate for Feb-2025 is 2.9 percent which was 5.0 percent in Jan-2025. India's merchandise exports contracted sharply in Feb-2025, falling by 10.9 percent YOY. This decline was the steepest in 20 months. Merchandise Imports also saw a notable decrease, falling by 16.3 percent. This was largely due to a 29.6 percent drop in oil imports.
- The RBI's policy support will provide momentum to Private Investment. Favourable credit environment and falling interest rates are positive movements towards this direction. Private Consumption will be aided by falling inflation, which improves purchasing power.
- However, to keep up the growth momentum in the upcoming year, supporting acceleration in domestic demand, pick up in capital investment, boost to the manufacturing sector and improvement in exports, notably merchandise exports are required.

## World GDP Projection 2026 (IMF)

**The IMF has projected the GDP growth rate of India for 2026 at 6.3%. Global growth is expected to remain at 3.0%, Emerging and Developing Asia at 5.1% and China at 4.0%.**

## India GDP Projection 2026 (RBI)

**The MPC of the RBI has kept its growth projection for India's GDP at 6.5% for the FY 2025-26. Quarterly GDP growth rates are estimated as Q1 at 6.5%, Q2 at 6.7%, Q3 at 6.6% and Q4 at 6.3%.**

**The RBI has forecast retail price inflation for FY 2025-26 at 4.0%, with Q1 at 3.6%, Q2 at 3.9%, Q3 at 3.8% and Q4 at 4.4%. India's CPI inflation eased from 3.61% in Feb-2025 to 3.34% in Mar-2025. It is the lowest year-on-year inflation after Aug-2019.**
